Day 1 Dards pass

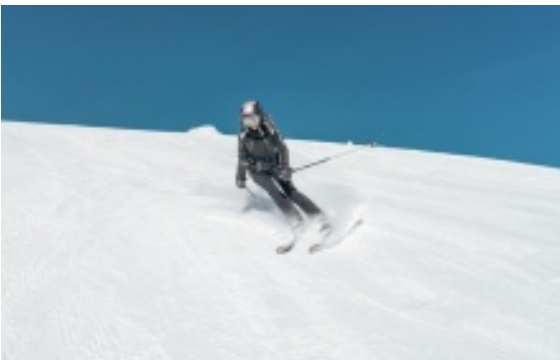

We meet with our guide and the rest of the group in the city center of Chamonix. We check our technical equipment (renting is possible), the guide will brief us on the following days program and will give us our picnic of the day. We then leave by car towards the hamlet of Les Praz, just outside Chamonix, in order to take the Flégère cable car.

Once at the top, we head towards the Lac Blanc ("White lake"), then towards the west to join the Dards pass at 2790m.

This first day is the perfect opportunity to put ourselves into conditions and verify our personal technical knowledge : the guide will teach us a few skill during the day such as searching with an avalanche transceiver (DVA).

Day 2 Grands Montets summit (3295m) - Argentière refuge (2771m)

We start our day from the village of Argentière by a cable car ride of Plan Joran and Bochar. Then, we join the ski-touring itinerary to reach the Grands Montets peak by crossing the Rachasses pass. We leave for the longest off-piste of the massif : the Valley Blanche ! We will go to the 'Salle à Manger' at around 2400m to have some lunch before climbing up the Périades glacier. We will make a left towards a nice carved valley leading us to the Tacul pass (steep slope on 200m). Weather

The weather in the French Alps varies up and down the mountain chain. It is a mountainous region between 800 and 4000 meters, so altitude plays a big part in the local weather.

As you climb higher into the mountains it gets 1 degree cooler every 100 meters. It is the case all year around but other factors such as temperature inversions and winds influence the climate. The sun plays a very important role too. In the winter, when the sun is lower in the sky, some lower or north facing valleys are blocked from the sun by mountains for a large part of the day and are colder.

Keep in mind that weather conditions are unpredictable. Therefore, the trip organization can me modified for your safety.

Electricity

There will be electricity in Chamonix, if you decide to stay a night before or after your trip. If you are scared to run low on battery, we advise to bring an external battery charger.

Power plugs in France have the particularity of being male and female at the same time : they have 2 prongs and a receptacle. If you need an adapter, please purchase if before departure.

In France the power plugs and sockets are of type E. The standard voltage is 230 V and the standard frequency is 50 Hz.

Local time

France is in the Central European Time Zone. Central European Standard Time (CET) is 1 hour ahead of Greenwich Mean Time (GMT+1).

Like most states in Europe, Summer Time (Daylight-Saving) is observed in France, where the time is shifted forward by 1 hour; 2 hours ahead of Greenwich Mean Time (GMT+2).

After the summer months, the time in France is shifted back by 1 hour to Central European Time (CET or GMT+1).
